Rent An Astronomer Launches Private Backyard Stargazing Experiences Across the Bay Area Ahead of Peak Winter Night Sky Season

SAN FRANCISCO, CA — As crisp autumn air clears the fog and opens up prime night-sky viewing across Northern California, astronomer Alan Powell has officially launched **Rent An Astronomer**, a premier mobile stargazing service bringing research-grade telescopes and guided cosmic tours directly to private backyards, estate events, and gatherings across Marin, San Francisco, and Sonoma counties.

Whether hosting an intimate dinner party under the stars, a family science night, or a corporate retreat in wine country,Rent An Astronomer turns any dark yard or venue into a private observatory. Powell combines precision optical gear with engaging storytelling, taking guests on a journey through distant galaxies, glowing nebulae, and planetary wonders without ever leaving home.

WHAT IS AN ASTRONOMER? Part scientist, part cosmic tour guide, and full-time sky story teller, an astronomer is someone who studies the universe beyond Earth—from neighboring planets to stellar nurseries billions of light-years away. Alan Powell translates complex astrophysics into accessible wonder, turning standard stargazing into an interactive,hands-on adventure for curious minds of all ages.

KEY SERVICE HIGHLIGHTS & WINTER SKY TARGETS

- **Turnkey Backyard Observatory:** Powell arrives with precision high-powered telescopes enabling breathtaking views of our nightsky….

- **Tailored for Any Event:** Customized interactive programming for family gatherings, wine country dinners,milestone birthdays, and corporate events.

  "Alan's knowledge and his precision instruments, along with his passion for astronomy, made for a great evening! Highly recommend!" — Sandra Evans, CEO of Wire Notebook

SERVICE DETAILS & FAST FACTS
